27th February 2015

Dear Parents/Carers

Extending Mathematical Understanding (EMU) Parent Information Session - INFANTS

You are invited to attend an Extending Mathematical Understanding (EMU) Parent Information Session on Thursday 5th March 2015 at 9:15am in the Library.

The Program involves a Mathematical Assessment Interview for each student, intervention for vulnerable students in Year 1 (similar to Reading Recovery) and professional learning for teachers. EMU was implemented in 15 schools across the Parramatta Diocese in 2010 and each year has been extended to other schools.

Our school commenced participation in the EMU Program last year and this year we completed a Mathematical Assessment Interview on every student, Kindergarten to Year 6. The Program is coordinated by the Parramatta Diocese of Catholic Education in partnership with the Australian Catholic University, Ballarat.

At the information session you will be informed about the EMU Program and numeracy learning in the classroom. You will also have the opportunity to visit your child’s classroom and see our approach to teaching Mathematics in action. Open classrooms will commence at 10:15am.

Please note that only infants classes will be open for observation, next Thursday parents will have the opportunity to visit primary classrooms.

Please complete the form below and return to school by Tuesday 3rd March 2015.

Yours sincerely

Anne Marrins, Tom Crowley, Jodi Jefferson and Victoria Matterson
Numeracy Team

 Extending Mathematical Understanding (EMU) Parent Workshop

I/We will attend the Extending Mathematical Understanding (EMU) Parent Workshop on Thursday 5th March at 9:15am in the Library.
